

THE LEADING BIG DATA STORAGE SUPPLIER TO DATA-INTENSIVE, GLOBAL ORGANIZATIONS

For over 15 years, DDN has designed, developed, deployed and optimized systems, software and solutions which enable enterprises, service providers, universities and government agencies to generate more value and accelerate time to insight from their data and information, on premise and in the cloud. Whether you need to accelerate all of your data-intensive applications and workflows or scale performance and capacity, we've built DDN[®] storage and solutions from the ground-up to deliver future-proof efficiency and performance at scale.

DDN HPC TECHNOLOGY THROUGHOUT THE ENTERPRISE

Organizations leverage the power of DDN technology and the deep technical expertise of our team to capture, store, process, analyze, collaborate and distribute data, information and content at largest scale in the most efficient, reliable and cost effective manner. Our customers include many of the world's leading financial services firms and banks, healthcare and life science organizations, manufacturing and energy companies, government and research facilities, and web and cloud service providers.

 <p>FINANCIAL SERVICES Powering 40% of Leading Global Investment Banks</p>	 <p>MANUFACTURING Powering 30% of the World's Top Aero & Auto Manufacturers</p>	 <p>WEB, CLOUD & TELCO Powering the Largest Web Scale Global Service Providers</p>	 <p>OIL & GAS Powering Over 1/2 of the Largest Oil & Gas Sites</p>
 <p>SUPERCOMPUTING Powering Over 2/3 of the Top100[®]</p>	 <p>LIFE SCIENCES Powering Over 1/3 of the Top Sequencing Centers</p>	 <p>DIGITAL SECURITY Powering the World's Most Demanding Surveillance, C4ISR & LI</p>	 <p>EARTH SCIENCES Powering Global Leaders in Weather & Climate Modeling & Prediction</p>

ACCELERATING BOTTOM LINE RESULTS AT SOME OF THE WORLD'S SMARTEST COMPANIES

WORLD LEADING PRODUCT PORTFOLIO FOR BIG COMPUTING

DDN's sustained Vision and execution have made us the World's largest privately held data storage company. Our technological and market leadership comes from our long term investments in leading edge research and development, our relentless focus on solving our customers' end to end data and information management challenges, and the excellence of our employees around the globe, all relentlessly focused on delivering the highest levels of satisfaction to our customers.

DDN HIGH PERFORMANCE PORTFOLIO

FAST DATA & COMPUTE

IME delivers up to 1000X application acceleration and file system speed up with the world's most advanced application-aware I/O acceleration software.

FILE SYSTEM APPLIANCES

Scaler file storage offers best-in-class analytics, parallel file system and NAS for the most data-intensive and performance-demanding environments.

PERSISTENT DATA

DDN's award-winning block and file storage system is the world's fastest and most versatile hybrid SSD and disk, embedded and hyper-converged storage platform.

LIVE ARCHIVE & COLLABORATION

As the world's leading object storage software for secure colud, multi-site collaboration and active archive, WOS breaks through scalability barriers of file storage and enables organizations to build scalable, distributed storage clouds.

DDN End2End

HIGHEST SCALE END-TO-END BIG DATA LIFECYCLE MANAGEMENT

Enterprises and HPC environments alike, look to DDN to be their partner in understanding and addressing their business challenges. Users turn to DDN to deliver the highest levels of scalability and efficiency which is embedded in our disk arrays, our deep domain expertise in compute, application and systems integration, and for being the single point of contact to the end-to-end solution including all compute, networking, storage and software components.

WHY DO DATA-INTENSIVE ENVIRONMENTS PREFER DDN?

GREATEST DENSITY

Better density than any vendor with nearly 7PB of capacity in a single rack.

UNRIVALED PERFORMANCE

Over 6 million IOPS and 60GB/s in a 4U system, scaling to millions of IOPS and over 1TB/s in a complete solution.

INDUSTRY-BEST TCO

Consolidates hardware and related OPEX to meet both performance and budget requirements.

ACCELERATED WORKFLOWS

1000x faster workflows in data-intensive applications.

TRUE GLOBAL COLLABORATION

The most simple, automated and cost-effective data sharing.

UNPARALLELED EXPERTISE

Our Solutions Architects have deep application-level technical experience at the highest levels of scale.

AWARDS & ACCOLADES

World's Largest Privately Held Storage Company

Rated Excellent for Product Viability in Cloud Storage and Content Distribution Applications

Most Decorated Storage Vendor in HPCwire History

Most Innovative Flash Memory Application

BOTTOM LINE RESULTS.
ACCELERATED.
