DirectMON™

EXAScaler 2.4 and Later Are Not Supported by DirectMON 2.5 and Earlier

**Issue Summary**
EXAScaler 2.4, 3.0, and future releases are not compatible with DirectMON 2.5 and earlier. This is due to the replacement of the `pdsh` (Parallel Distributed Shell) utility with `clush` (Cluster Shell) to execute remote parallel shell commands in EXAScaler 2.4. DirectMON 2.5 and earlier use `pdsh`.

**Resolution**
This issue will be addressed in a future release of DirectMON.
